1. PRODUCT AND COMPANY IDENTIFICATION

**Trade Name:** Artisan FlexWrap Nail Powder

**Distributor:** The Nail Superstore
3804 Carnation Street
Franklin Park, IL 60131

**Telephone Number:** 847-260-4000
**Fax Number:** 847-260-4005

**TELEPHONE NUMBERS – 24 HOUR EMERGENCY ASSISTANCE:**

Infotrac Domestic - 800-535-5053
Infotrac International - 352-323-3500

3. FIRE AND EXPLOSION HAZARD INFORMATION

**Extinguishing Media**
Use a water spray, dry chemical, alcohol foam or carbon dioxide to extinguish fire.

**Basic Fire Fighting Procedures**
Evacuate area and fight fire from a safe distance. Wear self-contained breathing apparatus and full protective clothing.

**NFPA Rating**
Health – 1  Flammability – 1  Reactivity - 0

4. HEALTH HAZARD INFORMATION

Potential Health Effects, Skin
Nuisance particles may cause irritation.

Potential Health Effects, Eye
Nuisance particles may cause irritation.

Potential Health Effects, Inhalation
Gross overexposure to nuisance particles, regardless of how generated, may cause irritation of the respiratory tract. If affected by inhalation, remove to fresh air. If breathing difficulty persists, consult a physician.

5. FIRST AID INFORMATION

Skin
Wash affected skin areas with soap and water. See a physician if irritation persists.

Eye
Flush eyes with a large amount of water for at least 15 minutes.

Inhalation
Move subject to fresh air. If having difficulty breathing, administer oxygen. Give artificial respiration if breathing has stopped. Call a physician.

Ingestion
Ingestion of small quantities of this material under normal circumstances will not cause harmful effects.

In all of the above emergency cases, call a physician.

6. REACTIVIY INFORMATION

Stability / Incompatibility
Stable. Incompatible with strong acids, strong oxidizing agents.

Hazardous Reactions / Decomposition Products
Decomposing the polymer may generate some organic esters, these may contain methacrylates. Other decomposition products include carbon monoxide, organic acids, aldehydes and alcohol.

Hazardous Polymerization
Will not occur.

7. SPILL OR LEAK PROCEDURES INFORMATION

Spill or Leak Procedure
Sweep up carefully to prevent slipping hazard.
# Material Safety Data Sheet

## 8. SPECIAL PROTECTION INFORMATION

**Skin Protection: Personal Protection Equipments (PPE)**
- None required

**Eye Protection: Personal Protection Equipments (PPE)**
- Wear chemical safety goggles
- Have eye-washing facilities readily available where eye contact can occur.

**Respiratory Protection: Personal Protection Equipments (PPE)**
- None required if good ventilation is maintained under normal processing conditions.

## 9. STORAGE AND HANDLING EQUIPMENT

**Handling**
- Avoid temperatures above 299° C / 570° F

**Storage**
- Observe all label precautions.
- Minimum: Ambient
- Maximum: Ambient
- Store containers in a dry area, keeping containers closed to prevent absorption and contamination.

## 10. MISCELLANEOUS INFORMATION

**Disclaimer**

The data contained herein is based upon information that The Nail Superstore believes to be reliable. Users of this product have the responsibility to determine the suitability of use and to adopt all necessary precautions to ensure the safety and protection of property and involved in said use. All statements or suggestions are made without warranty, express or implied, regarding accuracy of the information, the hazards connected with the use of the material or results to be obtained form the use thereof.
Material Safety Data Sheet

Section 1. Chemical Product and Company Identification

Common Name

Distributor: The Nail Superstore
3804 Carnation Street, Franklin Park, IL 60131
Tel: 847-260-4000 / Fax: 847-260-4005

MSDS#  
Validation Date 12/3/2001
Print Date 12/3/2001

Synonym: Not available.

Trade name: Artisan FlexWrap Glaze Base

Material Uses: Industrial applications: Cyanoacrylate adhesive

In Case of Emergency: Infotrac: 800-535-5053

Section 3. Hazards Identification

Physical State and Appearance: Liquid. (Transparent Liquid.)

Emergency Overview: EMERGENCY OVERVIEW
Combustible liquid.
Rapid polymerization occurs upon contact with water or alkaline substances. Skin inflammation or burns may occur upon contact during this polymerization.
Will bond skin.
May cause mucous membrane and respiratory tract damage.
Use with adequate ventilation.

Wear suitable protective clothing and gloves. Store and use away from heat, sparks, open flame, or any other ignition source (See section 8).

Routes of Entry: Inhalation.

Potential Acute Health Effects

**Eyes** Slightly hazardous in case of eye contact (irritant).

**Skin** Bonds skin instantly.

**Inhalation** Concentrated vapors are hazardous if inhaled.

**Ingestion** No known hazard

Potential Chronic Health Effects

Recurrent use may result in irritation of mucous membrane and upper respiratory tract.

Medical Conditions Aggravated by Overexposure:

Repeated or prolonged exposure is not known to aggravate any medical conditions.

Overexposure/Symptoms:

Side effects are asthma, bronchitis & other chronic lung conditions/upper respiratory tract irritant.

See Toxicological Information (section 11)

Continued on Next Page
Section 4. First Aid Measures

Eye Contact  IMMEDIATELY flush eyes with running water for at least 15 minutes, keeping eyelids open. Do not attempt to pull apart bonded eyelid. Seek medical attention.

Skin Contact  After contact with skin, wash immediately with plenty of water. Gently and thoroughly wash the contaminated skin with running water and soap. Seek medical attention to remove cured material. Wash contaminated clothing before reusing.

Inhalation  If symptoms of prolonged exposure to concentrated material vapors appear, remove to fresh air. If breathing is difficult, loosen any restrictive clothing and provide oxygen and get medical care if necessary.

Ingestion  Do not induce vomiting. Saliva will cause cyanoacrylate to polymerize in the mouth. If lips are bonded together, use warm water to gently separate the lips apart.

Notes to Physician  Cured adhesive does not pose a health risk

Section 5. Fire Fighting Measures

Flammability of the Product  Combustible.

Auto-Ignition Temperature  >200°C (392°F)

Flash Points  The lowest known value is CLOSED CUP: 70°C (174.2°F). (Ethyl 2-cyanoacrylate)

Flammable Limits  Not available.

Products of Combustion  Not available.

Fire Hazards in Presence of Various Substances  Not available.

Explosion Hazards in Presence of Various Substances  None known

Fire Fighting Media and Instructions  SMALL FIRE: Use DRY chemical powder.
LARGE FIRE: Use water spray, fog or foam. Do not use water jet.

Protective Clothing (Fire)  Vapor respirator or a self-contained breathing apparatus.

Special Remarks on Fire Hazards  No additional remark.

Special Remarks on Explosion Hazards  No additional remark.

Section 6. Accidental Release Measures

Small Spill and Leak  Absorb with an inert material and put the spilled material in an appropriate waste disposal.

Large Spill and Leak  Combustible material. Keep away from heat. Keep away from sources of ignition. Stop leak if without risk. Finish cleaning by spreading water on the contaminated surface and allow to evaporate through the sanitary system. Be careful that the product is not present at a concentration level above TLV. Check TLV on the MSDS and with local authorities.
Section 7. Handling and Storage

Handling
To avoid fire, minimize ignition sources. Avoid contact with skin and eyes. In case of insufficient ventilation, wear suitable respiratory equipment. May react in presence of moisture. May react or be incompatible with alkalis.

Storage
Contains moisture sensitive material; store in a dry place. Keep away from sources of ignition. Keep container tightly closed and dry. Keep in a cool, well-ventilated place.

Section 8. Exposure Controls, Personal Protection

Engineering Controls
Good general ventilation should be sufficient to control airborne levels in small quantity use. Local exhaust is recommended for bulk repackaging or continuous large quantity use.

Personal Protection

Eyes Safety glasses.

Body Synthetic apron.

Respiratory Wear appropriate respirator when ventilation is inadequate.

Hands Gloves (impervious).

Feet Wear chemical resistant shoes

Protective Clothing (Pictograms)

Personal Protection in Case of a Large Spill
A self contained breathing apparatus should be used to avoid inhalation of the product. Boots. Full suit. Gloves. Safety glasses.

Product Name

1) 2-Propenyl acid, 2-cyano-, ethyl ester

Exposure Limits
TWA 0.2 (ppm) from ACGIH (TLV)
TWA 1 (mg/m³) from ACGIH (TLV)

Consult local authorities for acceptable exposure limits.

Section 9. Physical and Chemical Properties

Physical State and Appearance
Liquid. ( Transparent Liquid.)

Odor
Acrid.

Taste
Not available.

Color
Transparent.

Molecular Weight
Mixture.

pH (1% Soln/Water)
Not applicable.

Boiling/Condensation Point
The lowest known value is >190°C (374°F) (Ethyl 2-cyanoacrylate).

Melting/Freezing Point
Not available.

Critical Temperature
Not available.

Specific Gravity
1.05 (Water = 1)

Vapor Pressure
0.0075 mm of Hg (@ 20°C)

Vapor Density
The highest known value is >1 (Air = 1) (Ethyl 2-cyanoacrylate).

Continued on Next Page
Odor Threshold: Not available.
Evaporation Rate: Not available.
VOC: Not available.
Viscosity: Kinetic: 85 cp
LogK: Not available.
Ionity in Water: Not applicable.
Dispersion Properties: Not available.
Solubility: Insoluble in cold water.
Physical Chemical Comments: Insoluble in water

Section 10. Stability and Reactivity

Stability and Reactivity: The product is stable but it is water reactive.
Conditions of Instability: Rapid polymerization occurs upon contact with water or alkaline sustances. As a result, heat is generated. Skin inflammation or burns may occur upon contact during this polymerization.
Incompatibility with Various Substances: Reactive with alkalis, moisture, peroxides.
Hazardous Decomposition Products: Not available.
Hazardous Polymerization: Yes due to heat generated during polymerization.

Section 11. Toxicological Information

Toxicity to Animals: LD50: Not available. LC50: Not available.
Chronic Effects on Humans: The substance is toxic to mucous membranes, upper respiratory tract.
Other Toxic Effects on Humans: Slightly hazardous in case of skin contact (irritant). Concentrated vapors are hazardous in inhaled.
Special Remarks on Toxicity to Animals: Not available.
Special Remarks on Chronic Effects on Humans: Continuous high volume usage without adequate ventilation can irritate eyes and nose.
Special Remarks on Other Toxic Effects on Humans: Vapors are irritating to mucous membranes and upper respiratory tract. Under normal conditions of use of this product, no respiratory protection is required. Aproved breathing apparatus is required if large spill occurs.

Section 12. Ecological Information

Ecotoxicity: Not available.
BOD5 and COD: Not available.
Biodegradable/OECD: Not available.
Mobility: Not available.
Products of Degradation: Possibly hazardous short term degradation products are not likely. However, long term degradation products may arise.

Continued on Next Page
Section 13. Disposal Considerations

Waste Information  Cured products may be landfilled. Uncured product must be handled according to local regulations.
Waste Stream  Consult your local authority. Consult your local hazardous waste management for advice.

Section 14. Transport Information

DOT Classification  Combustible.

Label not required for shipments less than 450 liter or 119 gallons. Combustible Liquid, n.o.s., 3, NA1993, I

Marine Pollutant  Not available.

Special Provisions for Transport  Quantity of 450 liters (119 gallons) or less are not regulated; the following apply to larger quantities:
- Combustible liquid, n.o.s., 3, NA1993, III.
- Quantity limitations:
  - Passenger aircraft or railcar: 60 L.
  - Cargo aircraft: 220 L.

ADR/RID Classification  Not controlled under ADR (Europe).
IMO/IMDG Classification  Not controlled under IMDG.
ICAO/IATA Classification  Not controlled under IATA.

Section 15. Regulatory Information

HCS Classification  Class: Combustible liquid having a flash point between 37.8°C (100°F) and 93.3°C (200°F).

U.S. Federal Regulations  All ingredients are in compliance with TSCA.
- SARA 302/304/311/312 extremely hazardous substances: No products were found.
- SARA 302/304 emergency planning and notification: No products were found.
- SARA 302/304/311/312 hazardous chemicals: No products were found.

Section 1 – Identification

Product Name: Artisan FlexWrap Glaze Activator

Distributor: The Nail Superstore
3804 Carnation St., Franklin Park, IL 60131

Information Contacts: (847)260-4000

Emergancy Phone Numbers: US & Canada (800) 535-5053

Emergency Phone Numbers: International: 1-352-323-3500

Chemical Name: N/A

Family: SOLVENT

Product Use: Acrylic Accessory

Section 2 – Hazards Identification

EMERGENCY OVERVIEW

This information is based on findings from related or similar materials.

- Flammable liquid and vapor!
- May cause allergic skin reaction.
- May cause eye irritation.
- Avoid prolonged or repeated breathing of gases, vapors or mists.

Potential Health Effects, Signs and Symptoms of Exposure:

Primary Route of Entry Inhalation, skin contact, eye contact

Eye Exposure may cause eye irritation. Symptoms include stinging, tearing, redness and swelling.

Skin Can cause skin irritation. Prolonged or repeated contact may dry the skin. Symptoms may include redness, burning, drying, cracking, and skin burns.

Ingestion Swallowing small amounts during normal handling is not likely to cause harmful effects; swallowing large amounts may be harmful. This material can get into the lungs during swallowing or vomiting.

Inhalation Vapor and mist are irritating to mucous membrane. Breathing small amounts during normal handling is not likely to cause harmful effects. Breathing large amounts may be harmful. Symptoms usually occur at air concentrations higher than the recommended exposure limits.

Sub-Chronic Effects May cause headaches, nausea, vomiting and narcotic effect if over-exposed.

NOTE: Refer to Section 11, Toxicological Information for Details

See Section 16 for Risk and Safety Phrase Key

Section 4 – First Aid Measures

Date of Issue: 02/03/2010
First Aid for Eye
If symptoms develop, move individual away from exposure and into fresh air. Flush eyes gently with water for 15 minutes while holding eyelids apart. If symptoms persist or there is any visual difficulty, seek medical attention.

First Aid for Skin
Remove contaminated clothing. Wash exposed area with soap and water. If symptoms persist, seek medical attention.

First Aid for Inhalation
Remove to fresh air. If breathing is difficult, administer oxygen. If symptoms persist, seek medical attention.

First Aid for Ingestion
If individual is drowsy or unconscious, do not give anything by mouth; place individual on the leftside with the head down. Seek medical attention for advice about whether to induce vomiting. If possible, do not leave individual unattended.

Section 5 – Fire Fighting Measures

<table>
<thead>
<tr>
<th>Flash Point (°F/°C)</th>
<th>Flammable Limit (vol%)</th>
<th>Auto-ignition Temperature (vol%)</th>
</tr>
</thead>
<tbody>
<tr>
<td>TAG Closed: 68°F/20°C</td>
<td>400 ppm</td>
<td>N/DA</td>
</tr>
</tbody>
</table>

Method:
Extinguishing Media: Foam, dry chemical, cold water spray.

Fire Fighting Instructions:
Wear self-contained breathing apparatus and protective clothing. USE WATER WITH CAUTION. Use water spray to keep fire-exposed containers cool. Water may be ineffective in fighting the fire. Fight fire from a safe distance and protected location.

Unusual Hazards:
Flammable. When exposed to heat and flame, material is a fire explosion hazard. It may produce toxic products CO, Carbon dioxide and oxides of nitrogen. Vapors may cause a flash fire or ignite explosively. Vapors may travel considerable distance to a source of ignition and flash back. Prevent buildup of vapors or gases to explosive concentrations.

Section 6 – Accidental Release Measures

Spill or Release Procedures
Eliminate all sources of heat and ignition. Use absorbent material for spills and dike it, wash spill material into retaining containers. Place containers in a well ventilated area. Consult an expert on disposal of recovered material and ensure conformity to local disposal regulations. Keep unnecessary and unprotected personnel from entering. Contain and recover liquid when possible. Use non-sparking tools and equipment. Collect liquid in an appropriate container or absorb with an inert material (e.g., vermiculite, dry sand, earth), and place in a chemical waste container. Do not use combustible materials, such as sawdust. Do not flush to sewer! US Regulations (CERCLA) require reporting spills and releases to soil, water and air in excess of reportable quantities. The toll free number for the US Coast Guard National Response Center is (800) 424-8802. EU Regulations require the consultation of Directive 98/24/EC. If a leak or spill has not ignited, use water spray to disperse the vapors, to protect personnel attempting to stop leak, and to flush spills away from exposures.

Section 7 – Handling and Storage

Handling
Keep containers cool and dry. Keep away from heat, light and ignition sources. Avoid breathing high vapor concentrations. Avoid prolonged or repeated contact with skin. Use only with adequate ventilation. Containers should be bonded and grounded for transfers to avoid static sparks. Use non-sparking type tools and equipment, including explosion proof ventilation. Do not pressurize, cut, weld, braze, solder, drill, grind, or expose empty containers to heat, sparks, or open flames. Containers of this material may be hazardous when empty since they retain product residues (vapors, liquid). Wash thoroughly after handling.

Storage
Store in well ventilated area. Store @ 70°F +/- 15°F, allow some air space above liquid level. Keep containers closed while not in use.

Explosion Hazard
Vapors are heavier than air and may travel along the ground or may be moved by ventilation and ignited by pilot lights, other flames, sparks, heaters, smoking or other ignition sources at locations distant from material handling point. Never use welding or cutting torch on or near drum (even empty) because product (even just residue) can ignite explosively.

Section 8 – Exposure Controls / Personal Protection

Engineering Controls
Facilities storing or utilizing this material should be equipped with an eye facility and safety shower. Use process enclosures local exhaust ventilation, or other engineering controls to control airborne levels below recommended exposure limits. Use explosion-proof ventilation equipment.
Personal Protective Equipment

General
To identify additional Personal Protective Equipment (PPE) requirements, it is recommended that a hazard assessment in accordance with the OSHA PPE Standard (29CFR1910.132), or European Standard EN166 be conducted before using this product. Provide eye wash stations and safety showers. Wear impervious clothing to prevent ANY contact with this product, such as gloves, apron, boots, or whole body suit. Nitrile rubber is better than PVC.

Eye/ Face Protection
Use impermeable clothing to prevent ANY contact with this product, such as gloves, apron, boots, or whole body suit. Nitrile rubber is better than PVC.

Skin Protection
Wear resistant gloves. To prevent repeated or prolonged skin contact, wear impervious clothing and boots.

Respiratory Protection
A NIOSH/MSHA approved air purifying respirator with an organic vapor cartridge or canister may be permissible under certain limited circumstances where airborne concentrations are expected to exceed exposure limits. Protection provided by nuisance level organic vapor dust masks can be used, however the use of the respirator is limited. Follow OSHA respirator regulations found in 29 CFR 1910.134 or European Standard EN 149.

Section 10 – Stability and Reactivity

Stability: Stable under ordinary conditions of use and storage
Incompatibility (Materials to Avoid): Avoid oxidizing agents, acids & bases (heat)
Hazardous Decomposition Products: Heated material produces NO2, CO2, CO
Hazardous Polymerization: Will not occur
Conditions to Avoid: Heat, flame, ignition sources.

Chemical Fate Information

Biodegradability
When released into the soil, this material is expected to readily biodegrade; leach into groundwater, and/or quickly evaporate.

Chemical Oxygen Demand
N/DA

To the best of our knowledge, the ecotoxicological and chemical fate properties have not been thoroughly investigated. Do not allow to enter drinking water supplies, wastewater, or soil.
Section 13 – Disposal Considerations

Dispose of diking materials and absorbent in compliance with State, Local, and Federal regulations. Residual vapors may explode on ignition; do not cut, drill, or weld on or near the container. Mix with compatible chemical which is less flammable and incinerate.

Whatever cannot be saved for recovery or recycling should be handled as hazardous waste and sent to a RCRA approved waste facility. Processing, use or contamination of this product may change the waste management options. State and local disposal regulations may differ from federal disposal regulations. Dispose of container and unused contents in accordance with federal, state and local requirements. For EU Member States, please refer to any relevant Community provisions relating to waste. In their absence, it is useful to remind the user that national or regional provisions may be in force.

Section 14 – Transport Information

The basic description (proper shipping name, hazard class & division, ID number, packing group) is shown for each mode of transportation. Additional descriptive information may be required by 49 CFR, IATA and IMDG.

### 14.1 49 CFR (GND):
CONSUMER COMMODITY, ORM-D ( ≤ 1.0 L)
UN1993, FLAMMABLE LIQUID, N.O.S (ACETONE, ETHYL ACETATE), 3, II ( > 1.0 L)

### 14.2 IATA (AIR):
ID8000, 9, CONSUMER COMMODITY ( ≤ 0.5 L)
UN1993, FLAMMABLE LIQUID, N.O.S (ACETONE, ETHYL ACETATE), 3, II ( > 0.5 L)

### 14.3 IMDG (OCN):
UN1993, FLAMMABLE LIQUID, N.O.S (ACETONE, ETHYL ACETATE), 3, II, LTD QTY ( ≤ 1.0 L)
UN1993, FLAMMABLE LIQUID, N.O.S (ACETONE, ETHYL ACETATE), 3, II ( > 1.0 L)

Section 15 – Regulatory Information

### US Federal Regulations

**Clean Air Act: HAP/ODS**

This product contains the following hazardous air pollutants (HAPs):
- NONE

There are no ODS's (ozone depleting substances) as defined by the U. S. Clean Air Act.

**Clean Water Act: Priority Pollutant**

This product contains the following chemicals listed under the U. S. Clean Water Act Priority Pollutant and Hazardous Substance List:
- Isobutyl Acetate, CAS# 110-19-0

**FDA: Food Packaging Status**

This product has not been cleared by the FDA for use in food packaging and / or other applications as an indirect food additive.

**Occupational Safety and Health Act**

This product is considered to be hazardous under the OSHA Hazard Communication Standard.

Its hazard are:
- Immediate (acute) health hazard
- Fire hazard

**RCRA**

This product contains chemicals considered to be hazardous waste under RCRA (40 CFR 261):
- Ethyl Acetate CAS# 141-78-6, RCRA Code U112
- Acetone, CAS# 67-64-1, RCRA Codes U002
- May contain Characteristic of Ignitability: RCRA Code: D001

**SARA Title III: Section 302 (RQ)**

This product contains no chemicals regulated under Section 302 as extremely hazardous substances.

**SARA Title III: Section 302 (TPQ)**

This product contains chemicals regulated under Section 302-304 as extremely hazardous chemicals for emergency release notification (“CERCLA” List):
- Acetone, CAS# 67-64-1, RQ(lbs.): 5,000
- Ethyl Acetate CAS# 141-78-6, RQ(lbs.): 5000
- Isobutyl Acetate CAS# 110-19-0, RQ(lbs.): 5000

Date of Issue: 02/03/2010
Material Safety Data Sheet

Artisan FlexWrap Glaze Activator

Page 5 of 6

SARA Title III: Section 311-312:
This product is considered to be hazardous under the OSHA Hazard Communication Standard and is regulated under Section 311-312 (40 CFR 370). Its hazards are:
- Immediate (acute) health hazard
- Fire hazard

SARA Title III: Section 313:
This product contains the following chemicals which are subject to the reporting requirements of Section 313 of Title III of the Superfund Amendments and Reauthorization Act of 1986 and 40 CFR Part 372:
- Acetone, CAS# 67-64-1

TSCA Section 8(b): Inventory:
This product contains chemicals listed on the TSCA inventory or otherwise complies with TSCA premanufacture notification requirements.

TSCA Significant New Use Rule:
None of the chemicals in this material have a SNUR under TSCA.

Section 3. Hazards Identification

Physical State and Appearance: Liquid. (Transparent Liquid.)

Emergency Overview:

EMERGENCY OVERVIEW
Combustible liquid.
Rapid polymerization occurs upon contact with water or alkaline substances. Skin inflammation or burns may occur upon contact during this polymerization.
Will bond skin.
May cause mucous membrane and respiratory tract damage.
Use with adequate ventilation.

Wear suitable protective clothing and gloves. Store and use away from heat, sparks, open flame, or any other ignition source (See section 8).

Routes of Entry: Inhalation.

Potential Acute Health Effects:

Eyes: Slightly hazardous in case of eye contact (irritant).
Skin: Bonds skin instantly.
Inhalation: Concentrated vapors are hazardous if inhaled.
Ingestion: No known hazard

Potential Chronic Health Effects: Repeated use may result in irritation of mucous membrane and upper respiratory tract.

Medical Conditions Aggravated by Overexposure: Repeated or prolonged exposure is not known to aggravate any medical conditions.

Overexposure/Symptoms: Side effects are asthma, bronchitis & other chronic lung conditions/upper respiratory tract irritant.

See Toxicological Information (section 11)

Continued on Next Page
### Section 4. First Aid Measures

| Eye Contact | Immediately flush eyes with running water for at least 15 minutes, keeping eyelids open. Do not attempt to pull apart bonded eyelid. Seek medical attention. |
| Skin Contact | After contact with skin, wash immediately with plenty of water. Gently and thoroughly wash the contaminated skin with running water and soap. Seek medical attention to remove cured material. Wash contaminated clothing before reusing. |
| Inhalation | If symptoms of prolonged exposure to concentrated material vapors appear, remove to fresh air. If breathing is difficult, loosen any restrictive clothing and provide oxygen and get medical care if necessary. |
| Ingestion | Do not induce vomiting. Saliva will cause cyanoacrylate to polymerize in the mouth. If lips are bonded together, use warm water to gently separate the lips apart. |
| Notes to Physician | Cured adhesive does not pose a health risk |

### Section 5. Fire Fighting Measures

| Flammability of the Product | Combustible. |
| Auto-Ignition Temperature | >200°C (392°F) |
| Flash Points | The lowest known value is CLOSED CUP: 70°C (164.2°F). (Ethyl 2-cyanoacrylate) |
| Flammable Limits | Not available. |
| Products of Combustion | Not available. |
| Fire Hazards in Presence of Various Substances | Not available. |
| Explosion Hazards in Presence of Various Substances | None known |
| Fire Fighting Media and Instructions | SMALL FIRE: Use DRY chemical powder. LARGE FIRE: Use water spray, fog or foam. Do not use water jet. |
| Protective Clothing (Fire) | Vapor respirator or a self-contained breathing apparatus. |

### Section 6. Accidental Release Measures

| Small Spill and Leak | Absorb with an inert material and put the spilled material in an appropriate waste disposal. |
| Large Spill and Leak | Combustible material. Keep away from heat. Keep away from sources of ignition. Stop leak if without risk. Finish cleaning by spreading water on the contaminated surface and allow to evacuate through the sanitary system. Be careful that the product is not present at a concentration level above TLV. Check TLV on the MSDS and with local authorities. |

---

Continued on Next Page
Section 7. Handling and Storage

Handling
To avoid fire, minimize ignition sources. Avoid contact with skin and eyes. In case of insufficient ventilation, wear suitable respiratory equipment. May react in presence of moisture. May react or be incompatible with alkalies.

Storage
Contains moisture sensitive material; store in a dry place. Keep away from sources of ignition. Keep container tightly closed and dry. Keep in a cool, well-ventilated place.

Section 8. Exposure Controls, Personal Protection

Engineering Controls
Good general ventilation should be sufficient to control airborne levels in small quantity use. Local exhaust is recommended for bulk repackaging or continuous large quantity use.

Personal Protection

Eyes
Safety glasses.

Body
Synthetic apron.

Respiratory
Wear appropriate respirator when ventilation is inadequate.

Hands
Gloves (impervious).

Feet
Wear chemical resistant shoes

Protective Clothing (Pictograms)

Personal Protection in Case of a Large Spill
A self contained breathing apparatus should be used to avoid inhalation of the product. Boots. Full suit. Gloves. Safety glasses.

Product Name

Exposure Limits

1) 2-Propenyl, 2-cyano-, ethyl ester

TWA 0.2 (ppm) from ACGIH (TLV)
TWA 1 (mg/m³) from ACGIH (TLV)

Consult local authorities for acceptable exposure limits.

Section 9. Physical and Chemical Properties

Physical State and Appearance
Liquid. (Transparent Liquid.)

Molecular Weight
Mixture.

Molecular Formula
Mixture.

pH (1% Soln/Water)
Not applicable.

Boiling/Condensation Point
The lowest known value is >190°C (374°F) (Ethyl 2-cyanoacrylate)

Melting/Freezing Point
Not available.

Critical Temperature
Not available.

Specific Gravity
1.05 (Water = 1)

Vapor Pressure
0.0075 mm of Hg (@ 20°C)

Vapor Density
The highest known value is >1 (Air = 1) (Ethyl 2-cyanoacrylate).

Volatile
Not available.

Continued on Next Page
Odor Threshold Not available.
Evaporation Rate Not available.
VOC Not available.
Viscosity Kinetic: 85 cP
LogKow Not available.
Ionlicity (in Water) Not applicable.
Dispersion Properties Not available.
Solubility Insoluble in cold water.
Physical Chemical Comments Insoluble in water.

Section 10. Stability and Reactivity
Stability and Reactivity The product is stable but it is water reactive.
Conditions of Instability Rapid polymerization occurs upon contact with water or alkaline sustances. As a result, heat is generated. Skin inflammation or burns may occur upon contact during this polymerization.
Incompatibility with Various Reveal reactive with alakalis, moisture, peroxides.
Substances Hazardous Decomposition Not available.
Products Hazardous Polymerization Yes due to heat generated during polymerization.

Section 11. Toxicological Information
Toxicity to Animals LD50: Not available.
LC50: Not available.
Chronic Effects on Humans The substance is toxic to mucous membranes, upper respiratory tract.
Other Toxic Effects on Humans Slightly hazardous in case of skin contact (irritant). Concentrated vapors are hazardous in inhaled.
Special Remarks on Toxicity Not available.
Animals Special Remarks on Chronic Continuous high volume usage without adequate ventilation can irritate eyes and nose.
Effects on Humans Special Remarks on Other Vapors are irritating to mucous membrane and upper respirator tract. Under normal conditions of use of this Toxic Effects on Humans product, no respiratory protection is required. Approved breathing apparatus is required if large spill occurs.

Section 12. Ecological Information
Ecotoxicity Not available.
BOD5 and COD Not available.
Biodegradable/OECD Not available.
Mobility Not available.
Products of Degradation Possibly hazardous short term degradation products are not likely. However, long term degradation products may arise.

Section 13. Disposal Considerations

Waste Information  Cured products may be landfilled. Uncured product must be handled according to local regulations.
Waste Stream Consult your local authority. Consult your local hazardous waste management for advice.
Consult your local or regional authorities.

Section 14. Transport Information

DOT Classification  Combustible.
Label not required for shipments less than 450 liter or 119 gallons. Combustible Liquid, n.o.s., 3, NA1993, I

Marine Pollutant  Not available.

Special Provisions for Transport
Quantity of 450 liters (119 gallons) or less are not regulated; the following apply to larger quantities:
Combustible liquid, n.o.s., 3, NA1993, III.
Quantity limitations:
Passenger aircraft or railcar: 60 L.
Cargo aircraft only: 220 L.

ADR/RID Classification  Not controlled under ADR (Europe).

IMO/IMDG Classification  Not controlled under IMDG.

ICAO/IATA Classification  Not controlled under IATA.

Section 15. Regulatory Information

HCS Classification  Class: Combustible liquid having a flash point between 37.8°C (100°F) and 93.3°C (200°F).

U.S. Federal Regulations  All ingredients are in compliance with TSCA.
SARA 302/304/311/312 extremely hazardous substances: No products were found.
SARA 302/304 emergency planning and notification: No products were found.
SARA 302/304/311/312 hazardous chemicals: No products were found.
SARA 311/312 MSDS distribution - chemical inventory - hazard identification: No products were found.
SARA 313 toxic chemical notification and release reporting: No products were found.
Clean water act (CWA) 307: No products were found.
Clean water act (CWA) 311: No products were found.
Clean air act (CAA) 112 accidental release prevention: No products were found.
Clean air act (CAA) 112 regulated flammable substances: No products were found.
Clean air act (CAA) 112 regulated toxic substances: No products were found.

International Regulations

EINECS  Not available.

DSCL (EEC)  This product is not classified according to the EU regulations.

International Lists  No products were found.

State Regulations  No products were found.
California prop. 65: No products were found.
